Internet Intelligence Investigations

Supervisor

Division/Department

Rank/Grade

SO1

CTP NE

Part A – JOB DESCRIPTION

Intelligence

Overall purpose of role

To deliver internet intelligence and investigations (III) capability, coordination and support to all four pillars of CONTEST providing tactical support and advice to investigations and operations into serious incidents of network based organised terrorist activity.

Key outputs for role -

- Lead by example and behave in line with the Police Code of Ethics ensuring that the force values and behavioural expectations are clearly understood and considered by managers, officers and staff in their decision
- To be responsible for the CT III, collecting and distributing relevant and quality intelligence from online activity. Provide technical advice to identify and exploit online opportunities in order to reduce harm to the UK caused by extremism.
- To investigate social media, monitoring profiles on strategic and operational threats for the CT environment, utilising software and analytical tools to identify threats, criminality and extremism that threaten the public and national security.
- To work closely with other law enforcement partners and colleagues to support intelligence and investigative advancement through evidential capture and other key supportive tactics such as, open source guidance, analytical profiling.
- To carry out covert proactive intelligence and evidence gathering operations including the use of intrusive and non-intrusive surveillance in accordance with CPIA, RIPA and other relevant investigation.
- To maintain an up-to-date understanding of internet-based technology and emerging trends relating to covert user techniques, social media and mobile applications.
- 7. Provide tactical and technical advice, including writing policies for SIOs, to identify and exploit online opportunities in relation to new and existing operations; supporting and working alongside other departments and as an operational team. To include working in support of the national III CT network requirements.
- To manage intelligence-led or post-incident online monitoring, horizon scanning and live-time evidential capture on behalf of the region.
- To inform disclosure and record evidence relating to online products and be able to present evidence in court to satisfy the Criminal Justice System in respect of integrity, necessity and proportionality.
- 10. To provide III subject matter expert perspective and input into relevant regional and national projects and strategic threats, including attendance on national practitioner working groups.
- 11. Work with partners, industry and academia to identify and exploit new techniques for gathering and analysing online intelligence / evidence.
- 12. To design and deliver appropriate online training to CT staff, to the required level and maintain a continuous development programme in order for individuals to operate online. Manage and audit the use/access to social media of all trained staff in accordance with relevant guidelines and legislation.

Dimensions (Financial/Statistical/Mandates/Constraints/No. of direct reports)

 The approach of the NECTU to the current Policing Plan and Regional Priorities determines the volume and/or complexity of research and analysis required.
